MEDICAL ACUPUNCTURE (for Healthcare Professionals)

The RCCMT has been offering Medical Acupuncture to healthcare professionals worldwide for more than fifteen years. This specially designed course offers both theoretical and practical training. In class training consists of INTENSIVE Sunday sessions with additional webinars and one-to one mentoring sessions. The course begins with basic theory, clean needle technique followed by insertion needle techniques in the first segment, enabling students to have immediate access and experience to practicing acupuncture. The meridian/channels, point locations and prescriptions, palpation, muscle anatomy, conditions and acupuncture clinic follow.

- **Segment 1** – Introduction to basic Acupuncture Theory, Clean Needle technique, Overall Meridians/Channels, Acupuncture Insertion, Palpation, Safety and Contraindications, Lung/Large Intestine Channels, Point Locations, Neuro-Acupuncture, Electro-acupuncture, Basic Point Prescriptions, Practical
- **Segment 2**– Review/Summary, Overall Body Muscle Acu, Locomotor system, Musculo-skeletal pain and dysfunction, Stress/Emotional Issues, 5 Elements, + Pain treatment/management, (acute and chronic), Stomach/Spleen Channels, Point Locations, Point Prescriptions, Practical
- **Segment 3** –Review/Summary, Conditions and treatments for the Upper and Lower extremities, Heart/Small Intestine and Pericardium/Triple Heater Channels, Point Locations, Point Prescriptions, Auricular, Practical
